

Supplementary info' sheet – July 2009

Memorial Windchimes TM [Registered Trade Mark and Design. Made under license to UK Patent GB2431390]

For many years we have been experimenting with the technicalities of encapsulating ashes into glass/crystal for the purposes of manufacturing **memorial wind chimes**. An easy task you may think (as we did...) not so. But now after dozens of failures and many hours of development, our associates [Sanders & Wallace] have perfected the process to produce 6 colours of crystal containing the unique and individual ashes of a loved-one.

These are the preliminary photo's of the shades on offer. Each wind chime is hand made by expert glass artisans – incorporating a small amount of ashes within a spiral. The 'icicles' (for want of a better description) are built into an array of either 4 or 6 beautifully coloured suspended crystals - which with just a slight breeze will tinkle delicately to remind you of the memories you have shared over the years.

The colour range [Violet, Turquoise, Blue, Green, Amber, Cranberry] may vary slightly.

The finished windchimes can be made with four 'icicles' or six and although we offer any colour combination (this may change) we suggest either one colour or two looks better.

The wind-catchers we would like to offer include :- Cloud, Star, Round, Oblong (landscape or portrait), Bone, Cat, These can be engraved with details of a loved-one.

The construction of the chime allows for slight attenuation of the 'icicles' and slight adjustment of the crystal clapper to make the chimes more or less sensitive to breeze. We also recommend installing the chimes in a sheltered position or inside.

Delivery will be 6 to 8 weeks from us receiving the order form and ashes - of which approx' and egg-cup is all that is required. Any surplus will be returned. We assure you that there are no mix-ups of ashes and no cross contamination.

At this stage, costs will be **£295 for 4 'icicles'** and £395 for six, including engraving, postage and careful packing. Our sales contract must be signed and sent with a 50% deposit with the balance on delivery.

Trade enquiries are welcome.
